

DEFOMEX

DEFOMEX is a general purpose silicone based liquid defoaming agent.

Application	DEFOMEX is effective in all water based fluids. It has been studied to obtain a balanced dispersibility in drilling fluids thus allowing high effectiveness at very low dosage. It can be used in a wide range of temperature, pH and viscosity of the drilling fluids.								
Treatment	The recommended dosage and treatment frequency will depend of the severity of foaming. However, as a guideline, concentrations in the range of 0.3 - 1.5 kg/m3 (0.1 - 0.5 ppb) will be effective in most cases.								
Typical Properties	<table><tr><td>Appearance :</td><td>white</td></tr><tr><td>Specific gravity</td><td>liquid</td></tr><tr><td>(20°C): pH:</td><td>1.0</td></tr><tr><td>Flash point:</td><td>approx. 6</td></tr></table>	Appearance :	white	Specific gravity	liquid	(20°C): pH:	1.0	Flash point:	approx. 6
Appearance :	white								
Specific gravity	liquid								
(20°C): pH:	1.0								
Flash point:	approx. 6								
Packaging	55 US gal non returnable iron drums, palletized, strapped and shrink wrapped (4 drums per pallet).

Certificate of Analysis

Property	Appearance at 20° C	Dry content (at 110°C)
Test Method	Visual	L0332
U. of M.	-	%
Specifications	Milky emulsion	8.0 – 9.0
Batch 2015100016	Milky emulsion	8.2
