

### 1. Chemical Description

EMULAM FC is a highly effective, liquid fluid loss reducer, for invert emulsion muds.

### 2. Application

EMULAM FC filtration-control additive is a primary additive used in all mineral oil and synthetic-based drilling fluid systems.

EMULAM FC gives very low and water free filtrates.

EMULAM FC is specially designed to complement the emulsifiers to provide tight HTHP fluid-loss control a low concentration.

### 3. Treatment

Treatments can range from 2 to 6 lb/bbl (5.7-17.1 kg/m<sup>3</sup>) depending on the type of oil, temperature, properties desired as well as other components of the system. Further treatments with EMULAM FC will enhance the control of filtration properties of the systems.

### 4. Typical Properties

Appearance:	dark liquid
Specific gravity:	0.97-1.00
Pour point:	< -10°C
Flash point:	> 75°C

### 5. Packaging

55 US gal non-returnable iron drums, palletized, strapped and shrink wrapped  
(4 drums per pallet)
